Abstract

From this study, the researcher's aim is to explore the use of e-resources NDLI & N-List by the UG students of Dr. Arun Motghare Mahavidyalaya. Another aim is to check the knowledge of E-Recourses NDLI & N-List of student. Today availability of e-recourses in libraries is common but these e-resources should be used by students in proper manner. Total 100 students were selected from various UG departments of Arts and Science faculty. This study result shows that most of the students are aware of NDLI & N-LIST. It is also noticed that the students make good use of these e-resources for their study. This paper focuses on use of NDLI & N-list E-resources.

Introduction:

Library is the most important department of the institution. ICT has changed the library services and resources. With the use of ICT information can be obtained from anywhere and anytime. These E-Resources are very helpful because of their easy portability and their features. NDLI and N-List are very important e-resources for library users. There are other open access platforms for e-resources available but NDLI and N-list are very important e-resources for students and users.

A Dr. Arun Motghare Mahavidyalaya has been established in 2000. The college runs various UG programmes B.A., B.Sc, B.Com, B.Sc. Home-Science are main courses run by the college. More than 120 students are studying at UG level.

➤ **N-LIST**

"National Library and Information Services Infrastructure for Scholarly Content (N-LIST)" an initiative of Ministry of Human Recourse Development under the NME-ICT. Now funded by UGC, as college component under e-Shodh Sindhu Consortium. N-List is a project that is being jointly executed by the e-ShodhSindhu Consortium, INFLIBNET Centre and the INDEST-AICTE Consortium, IIT Delhi. The programme is funded by the MHRD to extend access to selected e-resources to colleges covered under Section 2F/12B of UGC Act as well as Non-aided colleges. This project provides for:

The N-LIST project provides access to e-resources to students, researchers and faculty from colleges and other beneficiary institutions through server(s) installed at the INFLIBNET Centre. The authorized users from colleges can access e-resources and download articles required by them directly from the publisher's website once they are duly authenticated as authorized users.

N-LIST provides access to full-text e-journals, e-books and databases accessible through UGC-INFLIBNET's N-LIST databases. One can now access 7000+ full-text journals and 500000 + e-books freely and remotely. All electronic resources subscribed under N-LIST Programme are available from the publisher's through their website. N-LIST provides access of e-resources to all college covered under section 12B of UGC Act and Non-Aided College (Except Agriculture, Engineering, Management, Medical, Pharmacy, Dentistry and Nursing).

➤ **National Digital Library of India (NDL)**

Ministry of Human Resource Development under National Mission on Education through Information and Communication Technology (NMEICT) initiated the National Digital Library (NDL) Pilot Project in April, 2015. The National Digital Library Project is coordinated by the Indian Institute of Technology, Kharagpur. NDL covers setting up 24X7 infrastructures, providing single window search and browse facility for e-Learning resources to users. including e Contents that are available in various institutions of the country by integrating Institutional Digital Repository (IDR) of respective institutions and registering users from Participating Institutions. The alpha version of the NDL Portal has been made operational on February, 2016. National Digital Library is accessible to all students, teachers, researchers, Government Officials, Public Servants, etc. irrespective of their State/UT. National Digital Library currently hosts contents in more than 70+ languages, both in Indian and Foreign. The main objectives of NDL are built up a repository for national knowledge asset.

Review of the Literature

- Avinash Yette (2020). Through this research paper research scholar describe the benefit of NDL India app. He find that the use of E-resources available through mobile is very important for user. Most of user knows about NDL India app and they are mostly use for class notes and subject related materials.
- Rani Vaidya (2018). It shows the status of the National Digital Library of India and attempted to find out the way learning resources of NDLI are organized. It is also find out the coverage of learning resources and availability of the content with regards to educational level.
- R. and Ghade, Vibha A. (2018). she describes various aspects of Digital Library its contents, components, characteristics, emerging technologies in Digital library in India.
- Mahadik, (2020). A study of digital resources and its usages in Law sciences by law users for different purposes. The researcher will assess the digital literacy among the law users for the purpose of use

Objective of the study

- The use of NDLI & N-LIST E-Resources
- The frequency of use of NDLI & N-List.
- The purpose of the use of NDLI & N-LIST.
- Find the satisfaction of the students.

Methodology

There are various research methodologies available. For this research, descriptive research methodology is used. The Aim of this research is to know the awareness about E-

Resources, especially, NDLI & N-List among the students. For this research questionnaires were prepared for data collection. Sample of 100 students from both arts and science UG students were taken for this research. The collected data is analyzed by SPSS software and presented in the table below.

Data Analysis and Interpretation

Table No-1

Gender wise Distribution

Male	Female	Total
40 (40%)	60(60%)	100

The questionnaires distribute among 100 students, 40 male students and 60 girls students responded for this research.

Table No-2

Knowledge of NDLI & N-List E-Resources

NDLI	N-List	Both NDLI & N-List	Total
20 (20%)	30(30%)	50(50%)	100

Students were asked about the knowledge of NDLI & N-List E-Resources. 20 % students know about NDLI, 30 % percent students have the knowledge of N-List e-resources and remaining 50 % students have the knowledge of both NDLI & N-List E-Resources.

Table No-3

Membership of NDLI & N-List E-Resources

NDLI	N-List	Both NDLI & N-List	No- Membership of any	Total
10 (10%)	20 (22%)	20(20%)	50(50%)	100

Students were asked whether they have the Membership of NDLI & N-List E-Resources. The survey shows that 10% students are NDLI members, N-list members are 20% students and both NDLI & N-List members' students are 20% of and No Membership are taken 50% of students of 100 students.

Table No-4

Place of Using NDLI & N-List E-Resources

Place	Responds	Total
Library	60	60%
Home	25	25%
Computer Lab	15	15%

Students were asked which place they used E-Resources NDLI & N-List. The most of the 60% students are searching NDLI & N-List E-Resources in library. 25% of students searching e-resources in their home. Remaining 15% of student used college Computer Lab for searching NDLI & N-List E-Resources.

Table No-5

Frequency of Use NDLI & N-List E-Resources

Frequency	Responds	Total
Daily	25	25%
Once a Week	25	25%
Once a Month	30	30%
When Needed	20	20%

Students were asked what is the searching frequency of E-Resources NDLI & N-List; most of the students are searching e-resources daily 25%. 25% students are searching once in the week. 25% students were used once in the month. 30% students are searching once a month and 20% students searching NDLI & N-List E-Resources when they need.

Table No-6

Time Spend for Search NDLI & N-List E-Resources

Timey	Responds	Total
1 Hour	60	60%
2-3 hour	20	20%
More than 5 hour	20	20%

In this research students were asked how much time they spend for searching e-resources. Dally for use of E-Resources NDLI & N-List, most of the students are searching daily 1 hour 60%, 20 students spend 2/3 hours daily for e-resources 20%. 20 students spend more than 5 hours 20 %.

Table No-7

E-Recourse use for

	Responds	Total
Class Homework	50	50%
Study material	25	25%
others work	25	25%

In this table student were asked for what reason they used NDLI & N-List e-resources. Almost 50% of student says that they used NDLI & N-List for their class homework or syllabus study. 25% students were used e-resources for study materials. And remaining other 25% are used e-resources for other work.

Discussion and Conclusion

From this study we know that many students are aware about e-resources. The most students were used e-Resources for their study views. They are not aware of n-list and NDLI. And they are spends most of the time in library for E-Resources. We notice that E-Resources are very important for students for learning. The library has facility of NDLI and N-List because most of the students are member of NDLI and N-List.
